Mr. Frank Dalton
General Supervisor
Metropolitan Sanitary District of
Greater Chicago
100 E. Erie Street
Chicago, IL 60611

Dear Mr. Dalton:

Ecology and Environment, Inc. has been retained by the U.S. Environmental Protection Agency under contract 68-01-6692 for the purposes of inspecting and evaluating candidate sites for the National Priorities List under (CERCLA) the Superfund Act. As a part of our evaluation, the U.S. EPA has asked us to perform an on-site inspection at the A. P. Green Refractories Company located at R.R. #1 in Morris, IL.

A. P. Green Refractories allegedly accepted sludge from the Metropolitan Sanitary District for approximately two years. The acceptance of the sludge ended in 1974 or 1975. I am writing in regards to obtaining information on the type of sludge, nature of its constituents (sludge analysis), and quantity of sludge accepted at A. P. Green in Morris. I have contacted Mr. Potocek-MSD, and he suggested that I request this information from you. I would appreciate any information you could send me pertaining to this subject.

If there are any problems with obtaining this information or if you have any questions, please do not hesitate to contact me. I can be reached at (312) 663-9415. I have enclosed my Letter of Introduction from the U.S. EPA.

Sincerely,

Cynthia Pugh
